This year, Wanderer Festival has proudly partnered with B-Alternative, an environmental solutions group promoting a planet-positive future. B-Alternative helps reduce the footprint of festivals and events by providing vendors with reusable cutlery, crockery and drinking cups.

Throughout the festival, the B-alternative team will be running onsite washing services and education on correct recycling and waste stream sorting to make your festival experience mighty and your footprint minimal.

Please place food waste into the appropriate bin at zero waste bin stations. All food packaging will be reusable.

Please drop these off at the B-Alternative tent to be washed when you're done.

There will be minimal bins for landfill. If you bring any items that can only go to landfill, please take them home with you. We will have green-lid bins for organic compostable material for FOGO (Food Organics Garden Organics) and yellow-lid bins for recyclables.
